DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 5-10, and 12-26 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art references do not teach the combination of separating an egg yolk and forming a paste additive from the first portion and an oil additive from the second portion. Herring (US 4,219,585) and Hatanaka (US 5,028,449) both disclose a method to form oil derived from egg yolk, but do not teach separating the egg yolk to also form a paste. Hollweg (DE 4200678 A1) does not teach first separating the egg yolk to form the the paste and oil. Also, the paste formed by Hollweg is discarded and not later combined with the oil. The method of Sim (WO 91/03946 A1) involves temperatures outside of the claimed ranges

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
